# HEMOSTAR XF 1.0

Single Channel Haemostasis Analyzer

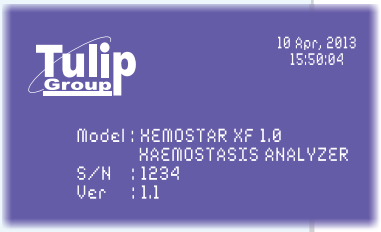

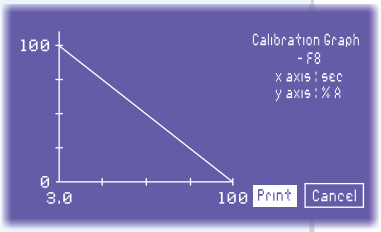

***Your trusted partner in Heamostasis Assessement***

# HEMOSTAR XF 1.0

Single Channel Haemostasis Analyzer

**Hemostar XF 1.0 is crafted for synergy with clot based assays engaging trustworthy partnership in Haemostasis Assessment**

## SPECIFICATIONS

- **Measurement** : Opto - mechanical measuring system
- **Locations** : 50 Programmable locations
- **Sample ID** : Upto 10 numeric characters
- **Assays modes** : PT/APTT/TT/FIB/ FACTORS/ PC/PS/other clot based assays
- **Display** : Large, backlit, graphical LCD
- **Calibration** : 2 - 7 Pt. with plot
- **Incubation** : 2 reagent, 16 specimen and 1 reading positions at 37 ± 1°C
- **Reporting** : Seconds, Ratio, % A, INR, mg/dl, g/L, IU/ml
- **Printer** : Inbuilt thermal
- **Data transfer** : RS 232

**In Synergy with India's widely used PT reagents UNIPLASTIN and LIQUIPLASTIN for uniformity in INR**

*Specifications are subject to change without prior information

GE3000/HXF-0413/VER-1
